Project profile summary

DEMO - Nord Metals Processing

Metal finishing line expansion

Sector	Heavy industry
Location	Zaghouan, Tunisia
Financing request	9,400,000 TND
Workforce	185 employees

Scenario context

Metal surface treatment using chemical baths and solvents. Permit renewal, emergency procedures, wastewater treatment and hazardous waste tracking have documented gaps.

Evidence and verification status

Critical environmental safeguards and major fire-safety gaps. High risk must not be masked by a positive answer elsewhere.

Presentation purpose

Critical environmental safeguards and major fire-safety gaps. High risk must not be masked by a positive answer elsewhere.
