Workforce and employment summary

DEMO - Sahel Responsible Textiles

Water reuse and worker safety upgrade

Sector	Textile
Location	Monastir, Tunisia
Financing request	2,400,000 TND
Workforce	260 employees

Scenario context

Dyeing and garment manufacturing. Closed-loop water reuse, approved chemical storage, worker representation and supplier checks support the modernization project.

Evidence and verification status

The scenario includes employment contracts, social security registration, worker representation and accident monitoring. Staff numbers include permanent and temporary workers; no personal employee data is included.

Presentation purpose

Shows the social pillar's 45% contribution in textile while retaining material chemical and water exposure.
